Mr. Domingo:

Following is the Bimonthly Progress Report required by the 3008(h) Order (Burlington Environmental Inc. dba Philip Services Corp.) for RFI activities completed at the Port of Seattle Pier 91 Facility for the months of November and December 1997.

Description of Work Completed

- Philip submitted comments to Ecology during the public comment period regarding the proposed Agreed Order under MTCA.
- Philip met with the Port of Seattle to discuss issues relating to the proposed Agreed Order under MTCA. The Port of Seattle agreed to select a Port representative to serve as the project manager for the PLPs in the Order.

Projected Work for Next Reporting Period

- Complete first quarter 1998 groundwater sampling and water/product levels in January.
- Train Port of Seattle employees in ground water sampling techniques so that the Port can take over ground water sampling activities beginning with the second quarter sampling event. PSC will continue to analyze the samples and manage the data.
- The PLP group for this site plans to meet in January.
